2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

Internal assessment is very robust that every faculty member is constantly assessed for quality improvement. Faculties are encouraged to attend Faculty Improvement programs and Faculty Development programs in other institutes. This can improve the confidence of faculty so that teaching activity will be more strengthened. Internal assessment is done at the end of every academic year. Every HOD assesses the concerned staff and submits the report to the principal with proposed action/ advice/suggestion. Student feedback on each faculty is collected and the concerned HOD consolidates the total feedback, mark some significant points and list out his/her remarks against each faculty. Based on the HOD's remarks the Principal interacts with the faculty and initiates any action. Similarly, every student is assessed through Mid term exams and through the performance of students in MID's. Regular University Examinations at the end of semester as per the University norms. Explanation of the under rated

students is assessed and remedial measures are taken.

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time- bound and efficient

The institution has established a time bound mechanism for Examination and Evaluation. There is an Examination Cell working on examination related issues concerning both internal and external examinations. One senior faculty member is in charge for the Examination Cell. Internal exams like Mid Term Exams are planned after completion of sufficient syllabus, say, two units of the subject. (As per University norms) Conduction of internal examination is done by the examination cell and its coordinator coordinates with HODs for internal Exam paper setting, and exam evaluation. Answer scripts of the internal exams are given to the students for personal verification. Everything is transparent and the final marks of internal exams are submitted to the university after checking of the answer scripts by the students. Once this process is completed no further changes are entertained. All this activity is to be completed within a week time as prescribed by the university. Any grievances related to the internal exams are brought to the notice of the concerned teacher and get clarified. The teacher has to satisfy/convince the student with his explanation on the evaluation. As external exams are conducted by the University the college has only the duty of arranging the facilities for smooth and fair conduction of exams in the college by strict vigilance. The evaluation of the university exams is conducted after coding the answer scripts. Our college is one of the spot valuation centers of the university and the answer scripts are evaluated with most care and vigilance.

2.6 - Student Performance and Learning Outcomes

2.6.1 - Programme and course outcomes for all Programmes offered by the institution are stated and displayed on website and communicated to teachers and students.

A Program Outcome (PO) examines what a program is to do, achieve, or accomplish for its own improvement in support of institutional goals. A Course Outcome (CO) is a measurable, observable, and specific statement that clearly indicates what a student should know and be able to do as a result of learning the course. As the institution offers both UG and PG programs both the outcomes are different. For UG program the PO is to improve the basic knowledge of the students related to the specific program while the CO is the number of students got a particular percentage of marks in the university exams. For PG program the PO is to get much insight into the specific subject that supports the overall goal. The college offers seven UG programs and three PG programs. The PO of UG and PG programs is good result with good percentage of marks that makes students saleable. More students get placements while they are studying. Out of these UG programs there are seven different courses and all are having equal demand. Each course has its own CO in the form of its salability in the market.

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

The PO Evaluation is done at the level of Principal, CAC and University norms. As per syllabus, change in PO and CO will happen at time to time. CO Evaluation is done at the level of concerned HOD with support document for its betterment. During the current Academic year we have developed an online mechanism for evaluation of CO and PO attainment of the students through the project developed by internal computer science department in order to measure outcome based education with the guidelines provided under IQAC and CAC. CO PO attainment levels are measured and feedback are provided at HOD level to faculty for upliftment. However to indulging a robust mechanism keeping view of autonomous modal in near future is the suggestion by IQAC
