Guest Lecture on - Introduction to Data Science at Vignan Degree College, Kaikalur on 06-03-2023

On March 6, 2023, Vignan Degree College in Kaikalur had the privilege of hosting Mr. M N Ravindra Babu, Associate Professor from the Department of Computer Science at B V Raju College, for a guest lecture.

The session, titled "Introduction to Data Science," offered students a comprehensive overview of the field, blending expert insights with practical knowledge to illuminate the fascinating world of data science.

In Mr. M N Ravindra Babu's engaging session on "Introduction to Data Science," several key topics were covered, providing attendees with a solid foundation in the discipline.

Here's an outline of the subjects explored:

1. **Fundamentals of Data Science:** An overview of what data science is, including its significance and how it integrates with various fields such as statistics, machine learning, and computer science to extract knowledge and insights from data.
2. **Data Exploration and Preparation:** Techniques for discovering patterns, handling missing data, and preparing datasets for analysis. This part of the lecture emphasized the importance of clean and well-organized data for successful data science projects.
3. **Statistical Methods and Probability:** An introduction to the statistical concepts and probability theories that underpin data science. This included discussions on descriptive statistics, inferential statistics, and probability distributions, which are crucial for data analysis and hypothesis testing.
4. **Machine Learning Algorithms:** A primer on the different types of machine learning algorithms (supervised, unsupervised, and reinforcement learning) and their applications in data science. Real-world examples were provided to illustrate how these algorithms can be used to make predictions or classify data.
5. **Data Visualization:** Techniques and tools for visualizing data were discussed, highlighting how effective visualization helps in communicating findings and insights in an accessible way to a broader audience.

Students actively participated in the session, posing relevant questions and engaging in hands-on activities. The use of practical examples, specifically tailored for the data science domain, significantly enriched their learning experience. These activities facilitated a deeper understanding of data science principles, enabling students to apply theoretical knowledge to real-world scenarios effectively.

Conclusion:

In summary, the "Introduction to Data Science" guest lecture by Mr. M N Ravindra Babu was a hit. Students actively participated and engaged in hands-on activities, making the session interactive and informative. Practical examples tailored for data science helped students grasp complex concepts easily. Overall, it was a successful session, highlighting the importance of interactive learning in understanding data science.

WORKSHOP ON Tally.ERP 9

The Department Of Commerce conducted a two days workshop on Tally.ERP 9 for II B.Com students from 23/06/2023 – 24/06/2023 to enhance the knowledge about accounting software Tally and creating interest in students to learn accounting skills through ERP ,The students attended the two day workshop with much interest and made the workshop successful. The students Discussed the topics and practiced the same on software for gaining hands on experience about the software and gained a overview on how accounting works through software specially designed for accountancy. The activity got organized under the guidance of Trainer Mr. N. Joji, Tally Faculty, Swarna Bharat Trust, Atkur, and whole faculty of Department of commerce. The event got succeeded with the continuous co-operation of Principal, Vice-Principal and R.Rama Rao, HOD, Department Of Computer Sciences.

EVENT SUMMARY AND ACTION TAKEN REPORT

Guest Lecture on Accounting (28/6/2023)

Event Summary:

The Department has organized a guest lecture on "Highlights Of Accounting", the overview of accountancy in daily life and its importance. In this topics about Accounting policies and procedures at knowledge for I B.com Students on 28/06/2023. The Students has participated with utmost enthusiasm to know about the accounting benefits and systems policies. The program got organized Under the guidance of D.Satyanarayana, HOD, Department Of Commerce and all the Department faculty members. Mr V. DURGA PRASAD garu, M.Com., Assistant professor in Commerce, SMBTAV&SN college, Veeravasam, addressed students and created much knowledge on accounting concepts

The guest lecture for I B.Com students focused on the practical applications of accounting in business. Delivered by a practicing Chartered Accountant, the session covered key areas like financial statement preparation, auditing processes, and taxation. Real-world examples and case studies were used to illustrate the relevance of accounting principles. The speaker also highlighted career opportunities in the accounting domain and the importance of professional certifications like CA and CMA.

Action Taken:

- Students were encouraged to work on a project analyzing the financial statements of a company.
- A follow-up session was organized to discuss advanced accounting topics.
- Faculty members provided additional reading materials for students interested in accounting careers.

DEPARTMENT OF COMPUTER SCIENCE

A. Satya Vamsi Kumar, Assistant Professor in Computer Science Dept., B V Raju College, delivered the guest lecture on SQL Commands to the students of Second year diploma students of Smt. B.Seetha Polytechnic College on 07-07-23.

During the guest lecture on SQL commands, II CME students were introduced to the fundamental concepts and practical applications of SQL. The lecture began with an overview of SQL's significance in managing and analyzing data, along with an exploration of different database systems supporting SQL. The essential Data Manipulation Language (DML) commands, including SELECT, INSERT, UPDATE, and DELETE, were covered in detail, with explanations of their syntax and practical examples showcasing their usage. The lecture delved into retrieving data using the SELECT statement, covering filtering, sorting, grouping, and joining techniques. Students also learned about modifying data by inserting new records, updating existing ones, and deleting specific data.

In addition to the DML commands, the guest lecture also covered Data Definition Language (DDL) and Data Control Language (DCL) commands. The lecture provided an overview of DDL commands such as CREATE, ALTER, and DROP, explaining their role in creating, modifying, and deleting database objects such as tables, indexes, and views. Furthermore, the session delved into DCL commands like GRANT and REVOKE, which are used to manage user permissions and security within the database system.

The session included interactive exercises and real-world scenarios, allowing students to apply their newfound knowledge. Throughout the lecture, students actively participated, asking questions and engaging in discussions to deepen their understanding of SQL concepts. By the end of the session, the students had gained a comprehensive understanding of SQL's essential components, including DML, DDL, and DCL commands, enabling them to effectively manipulate and control data within a database environment. Students were equipped with the necessary skills to navigate databases and utilize SQL commands effectively.

The college is organizing a workshop on

"Handling of Analytical Instruments and Green Chemical Techniques"

The profession of pharmacy Education, in the present scenario, needs to upgrade the technological changes occurring in the field of pharmacy globally.

In this workshop, the deliberations are planned in such a way to impart the best practical training, research skills & designing small research projects in Pharmaceuticals Analysis.

Shri Vishnu College of Pharmacy was established in the year 1997 by the well known Philanthropist and Industrialist, Late Padmabhushan Dr. B V Raju under Dr. B V Raju Foundation's and Shri Vishnu Educational Society. With the Demise of the founder chairman in June, 2002, Sri K V Vishnu Raju, his grandson succeeded as chairman and is making all efforts to impart the Quality Education.

Shri Vishnu College of Pharmacy (SVCP) is the first private pharmacy college affiliated to Andhra University, Visakhapatnam and is situated in pollution free sprawling campus spread over 108 acres, with the latest equipment in spacious air conditioned laboratories, smart lecture halls, medicinal plant garden, drug museum, computer lab and seminar hall along with good library facilities to take up research projects.

SVCP has been successful in providing and maintaining high quality in research and teaching in Pharmaceutical Sciences. Our faculty members completed their doctoral studies availing the research facilities of our college.

The students are placed in various pharmacy industries and many of our Alumni are doing extremely well in industry, education and profession both in India and abroad. Our institute is having well experienced qualified and dedicated staff maintaining the academic standards. The college has been organizing seminars, conferences and guest lectures at regular intervals by eminent personalities from industries and academics.

Courses offered

B.Pharmacy

Pharm. D

M. Pharmacy

- Pharmaceutics
- Pharmaceutical Quality Assurance
- Regulatory Affairs
- Pharmaceutical Analysis
- Pharmacology

▪ **Recognized Research center by Andhra University.**

The objective of the workshop

To create and upgrade trained manpower in the area of pharmaceutical education and research and to inculcate the innovative ideas in the usage and handling of different analytical instruments & their software for advanced research.

Location

The campus is located approx. 3 km away from Bhimavaram railway station and bus complex, 107 km from Vijayawada and is well connected by road and rail.

Programme

The two days workshop is designed as two sessions, Inauguration, *Handling of Analytical Instruments and Green Chemical Techniques*, delivered by well experienced and trained faculty from premier institutions and organizations.

Workshop Outline

The topics of the workshop will be divided into two parts as theoretical and practical sessions.

Theoretical aspects like introduction to instrumentation, operation, trouble shooting, software issues and applications in pharmaceutical industries will be covered.

The practical aspects include hands-on training on various analytical instruments like ...

1. HPLC
2. GC
3. AAS
4. UV/VIS Spectrophotometer
5. Fluorometer &
6. Green Chemistry Synthesis

Registration Fee

- Students & Teachers - 100/-

The amount should be paid by way of D.D On any nationalized bank in favor of "The Principal, Shri Vishnu College of Pharmacy" payable at *Bhimavaram*.

Photocopies of registration form can be used if needed.

COMPREHENSIVE REPORT ON CERTIFICATION TRAINING

INTRODUCTION TO PYTHON, SQL AND TABLEAU

Course Overview:

The **B V Raju College** organized a certificate course for **students from Vishnu Dental College**, Vishnupur Bhimavaram focusing on providing fundamental knowledge in Python, SQL, and Tableau.

The course, held from the first week of November 2023 to the third week of December 2023, aimed to equip participants with essential skills applicable to their future studies in the MS program.

Instructors:

The course featured distinguished instructors, including Dr. I R Krishnam Raju, Dr. V Bhaskar Murthy, Mr.Naresh Bhimavarapu, and Mr. M N Ravindra Babu. These experts brought a wealth of knowledge and experience to the classroom, ensuring a high-quality learning experience for the participants.

Course Content:

Python:

The Python module covered the importance of programming and the role of Python in informatics.

Participants delved into the basics of Python programming, including variables, expressions, string operations, conditional execution, loops, functions, file handling, and data visualization.

This comprehensive coverage provided students with a strong foundation in programming, preparing them for more advanced concepts.

DBMS-SQL:

The Database Management System (DBMS) and SQL segment began with an introduction to databases, emphasizing entities, attributes, keys, and database design.

Participants learned about concurrency control and gained hands-on experience in SQL basics using Oracle. The syllabus covered Data Definition Language (DDL), Data Manipulation Language (DML), and Data Control Language (DCL), ensuring a thorough understanding of database concepts and SQL operations.

Tableau:

The Tableau module commenced with an environment setup, followed by an exploration of design flow, datatypes, and file types.

Participants gained practical insights into data sources, worksheets, calculations, sorts, filters, and the creation of charts and dashboards. This hands-on experience with Tableau empowered students to visually represent and analyze data efficiently.

Certificate and Recognition:

Upon successful completion of the course, certificates were awarded based on participants' performance in the Google Quiz assessment, providing a tangible acknowledgment of their proficiency in Python, SQL, and Tableau.

This recognition serves as a testament to their dedication and proficiency in the covered topics, enhancing their credentials for future academic pursuits.

The Introduction to Python, SQL, and Tableau course conducted by B V Raju College successfully provided Vishnu Dental College students with a robust foundation in programming, database management, and data visualization. The expertise of the instructors and the practical nature of the course content have equipped the participants with valuable skills that will undoubtedly contribute to their success in the upcoming MS program. The initiative taken by the college to bridge the gap between academic disciplines is commendable and reflects a commitment to holistic education.

A Guest Lecture on “**Number Theory**” was conducted to II MCA Students by Mr.P.L.Suresh, Faculty from Department of Mathematics, B V Raju college on 16-11-2023.

Number theory, a major component of discrete math, delves into the properties and behaviors of integers, especially natural numbers and occasionally all integers.

Understanding number theory is crucial in comprehending fundamental concepts in discrete math, as it provides insights into divisibility, prime numbers, modular arithmetic, and other key areas of study.

GUEST LECTURE

GUEST LECTURE ON “Introduction to Python and Networks”

Mr. G Chakradhara Rao, Dept., of Computer science B V Raju College, delivered the guest lecture on Python and networks to the students of II BSc and BCom students of RRDS GOVT.DEGREE COLLEGE, BHIMAVARAM on 02/12/23.

This session went on by addressing the various topics like, History of Python, Installation of Python, Data Types, Types of Networks, and topology. The session was made interactive and it is also very informative for the students.

It was intended to educate the students about the importance of Python and Networks. I concluded the session by presenting how Python works and varies networks types.

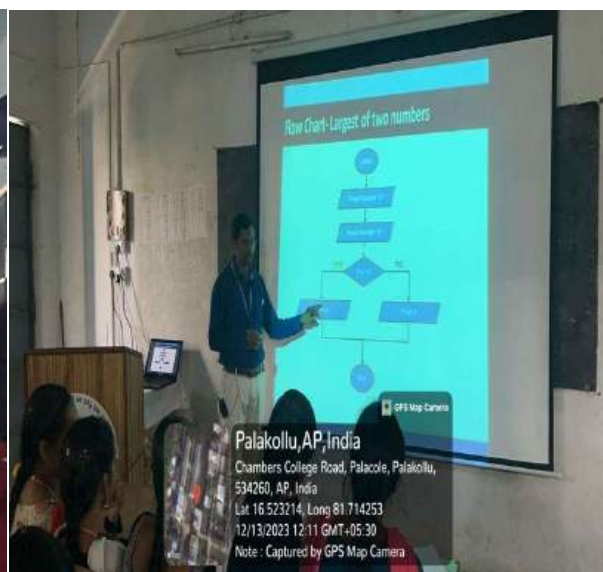

Guest Lecture on - Exploring Flow Charts using Raptor at BRR & GKR Chamber's Degree and PG College, Palakol on 13-12-2023

Mr. Naresh Bhimavarapu, Associate Professor Department of Computer Science at B V Raju College, delivered an insightful guest lecture on **"Exploring Flow Charts using Raptor"** at **BRR & GKR Chamber's Degree and PG College, Palakol, on 13-12-2023**. The lecture was tailored for I BSc students, aiming to introduce and delve into the practical aspects of algorithm design and visualization using flow charts with the Raptor programming environment.

He covered essential topics for I BSc students, including algorithm basics, characteristics, and the use of flow charts for problem-solving. He introduced Raptor, a user-friendly programming tool, explaining its role in translating algorithms into executable code. The practical session involved exploring the Raptor interface and creating example flow charts.

Students actively participated in the session, posing relevant questions and engaging in hands-on activities. The practical examples using Raptor enhanced their understanding of algorithmic concepts.

Mr. B Naresh's guest lecture successfully bridged theoretical knowledge with practical application, providing students with valuable insights into algorithm design and Raptor usage. The session contributed to a deeper understanding of these fundamental computer science concepts.

ONE DAY WORKSHOP ON MEDICAL DEVICES

AT AMTZ, VIZAG

B.V.RAJU COLLEGE

VISHNUPUR, BHIMAVARAM

DEPARTMENT OF LIFESCIENCES

ONE DAY WORKSHOP ON MEDICAL DEVICES

As a part of MOU Activities Lifesciences Department Final year students of Microbiology along with HOD and 2 faculty visited AMTZ - **Andhra Pradesh Med Tech Zone** in Vishakhapatnam on 19th December 2023.

AMTZ is India's premier medical technology park with common manufacturing facilities & common scientific facilities that include specialized laboratories, warehousing and testing centers such as the Centre for electromagnetic compatibility and safety testing, centre for biomaterial testing, centre for 3-d printing, centers for lasers, MRI super conducting magnets, gamma irradiation centre, mold & machining centre and many other industrial service centers. AMTZ is one of world's largest medical technologies manufacturing cluster with over 100 companies working on research, development and production of life saving medical devices.

Students visited the following centres:

- Artificial limb centre
- ADDIT-3D Printing
- COBALT-A Gamma irradiation for safest sterilization

ARTIFICIAL LIMB CENTER

AMTZ partnered with Wakon Healthcare Private Ltd to set up the Artificial Limb Centre in the campus. In this centre, the clinical assessment and examination of the patient are carried out. As per user's requirement, manufacturing and production of high-quality advanced variety of assistive devices such as **Lower Limb Prosthetics & Orthotics** (i.e. below knee, above knee), **Upper limb Prosthetics & Orthotics** (i.e. below elbow, above elbow), **Spinal Orthosis**, **endo skeletal below knee prosthetics**, **ankle foot orthotics**, **knee ankle foot orthotics**, **foot orthotics**, **Mobility aids** (i.e. wheelchairs, tricycles, motorized wheelchairs, standing frame, corner table, commode chair, elbow crutches, axillary crutches), **Compression garments**, **Cosmetic Restoration Prosthesis** etc.

It provides services like free consultation, assembly, fabrication, socket lamination, alignment, GATE training at low cost and subsidised prices. Facilities include medical camp services, heavy machineries, heavy duty router, hot air oven, drilling machine and grinding machines etc.

Artificial limb centre is being carried out under the supervision of AMTZ, Visakhapatnam. The process is extremely transparent and the beneficiaries are often offered same day service.

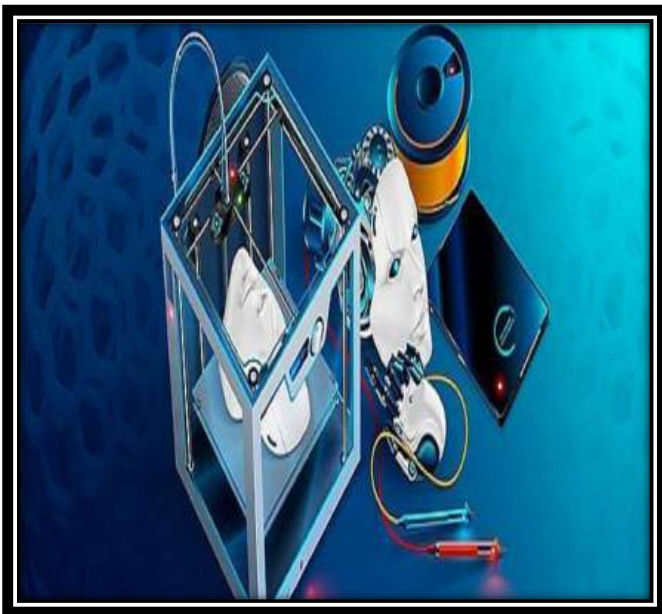

COE- ADDITIVE MANUFACTURING CENTRE

Additive manufacturing (AM) or 3D printing is a revolutionary way to make smaller, stronger parts and systems. The time and cost associated with developing a new product from conception to production can be reduced significantly using additive manufacturing. The Centre of Excellence - Additive Manufacturing (CoE-AM) of AMTZ has various branches that include Material Analysis Centre for Metal 3D Printing, Advanced Assembly Technology Centre, Polymer Additives Production Centre, Polyethylene Extrusion Centre and Radiation Protection AM Centre.

Advantages of 3D facility

- Mass customization
- New capabilities
- Lead time and speed
- Supply chain simplification
- Waste reduction

3D Printing equipment jet printing, laser sintering, stereo lithography and metal printing, PJP, CJP and MJP.

COBALT-A GAMMA IRRADIATION CENTRE

Gamma irradiation facility setup at AMTZ with cobalt source supply from BRIT/BARC would cater to 15% of medical device market.

Only one real parameter- exposure time- to control absorbed dose.

Multipurpose plant designed as per the guidelines at atomic energy regulatory board (AERB).

Minimal rise in temperature. Safe, reliable, and reproducible process.

Good penetration- enables treatment of products in final packaging, cartons, and complete pallets,

Ability to handle a wide range of product densities. No residue after treatment.

Products immediately ready for use.

Radiation facility

- Irradiation cell contains the radiation co-60 source.
- Labyrinth 1-2m thick walls to act as biological shield, control room. Loading and unloading area for the product.
- Ventilation room, dosimetry, and microbiology lab.
- Cell roof top& cask handling areas.

GUEST LECTURE ON "INTERVIEW SKILLS"

DATE : 28-12-2023
TIME : 10:30 AM TO 12:30PM
VENUE : DNR COLLEGE (A), Bhimavaram.

I, by the direction of the Principal Dr. I R Krishnam Raju and HOD U Raju, through proper channel, went to DNR College, Bhimavaram to deliver a guest lecture on "INTERVIEW SKILLS" as the students are in final stage of their academics and the maximum number of them are about to choose a career very soon. So that I thought it would be better to explain interview skills which helps the students to be confident in their professional interviews. I feel it was successful.

Head of the department, department of Electronics and Computer Science Association, Mr. V. Ratnasekhar, introduced me to the students and suggested them to utilize the session purposefully. Then I started interacting with the students, my lecture went on for two hours, later cleared the doubts of the students, explained interview skills and body language, after that few students expressed their gratitude and I conveyed my satisfaction and wished them all the success in their future endeavors.

Chief Guest Sri. Ch. Somarajugaru, Vice Principal, and HOD, V Ratna Sekhar, appreciated and thanked me. I was overwhelmed with their words and felicitation.

Few elements from my lecture...

- ❖ Time management
- ❖ Grooming for an interview
- ❖ Make a positive impression
- ❖ Body language
- ❖ Active listening
- ❖ Techniques to answer questions
- ❖ Express gratitude after the interview

DEPARTMENT OF LIFE SCIENCES

CPC& CPT MEDICAL CODING TRAINING PROGRAMME

Mr. B.Bibin and T. Pradeep interacted with final year life science students about medical coding training. Medical coding is the process of translating medical procedures and diagnoses into a universal code. This is done to ensure consistency in billing and to maintain accurate medical records.

Medical coding is the process of translating medical procedures, diagnoses, and services into alphanumeric codes. These codes are used for various purposes, such as billing, reimbursement, and data analysis. Medical coders assign these codes based on the information provided in medical records, such as physician notes, laboratory results, and radiology reports. The main coding systems used in medical coding include ICD-10-CM (International Classification of Diseases, 10th Edition, Clinical Modification) for diagnoses and CPT (Current Procedural Terminology) for procedures and services. Medical coding plays a crucial role in the healthcare industry, as accurate coding ensures proper reimbursement for healthcare providers and facilitates research and analysis of healthcare trends.

ICD coding, or International Classification of Diseases coding, is a standardized system used by healthcare providers to classify and code diagnoses, symptoms, and medical procedures. The ICD system is maintained by the World Health Organization (WHO), and it is used globally to support healthcare management, research, and policy-making. The ICD codes are used by healthcare providers to support accurate and consistent documentation of medical conditions and procedures. The codes are also used by insurance companies to determine coverage, and by government agencies to track

healthcare trends and costs. Accurate ICD coding is essential for proper billing and reimbursement, as well as for tracking healthcare outcomes and trends.

COURSE-A

Course A offers a computer science curriculum for beginning readers, including Kindergarten students. Students will learn to program using commands like loops and events. The lessons featured in this course also teach students to meaningfully collaborate with others, investigate different problem-solving techniques, persist in the face of challenging tasks, and learn about internet safety.

COURSE CONTENTS

- Lesson 1: Safety in My Online Neighborhood
- Lesson 2: Learn to Drag and Drop
- Lesson 3: Happy Maps
- Lesson 4: Sequencing with Scrat
- Lesson 5: Programming with Scrat
- Lesson 6: Programming with Rey and BB-8
- Lesson 7: Happy Loops
- Lesson 8: Loops with Scrat
- Lesson 9: Loops with Laurel
- Lesson 10: Ocean Scene with Loops
- Lesson 11: The Big Event Jr.
- Lesson 12: Mini-Project: On the Move with Play Lab
- Lesson 13: End of Course Project

COURSE OVERVIEW

▼ Digital Citizenship

▼ Lesson 1: Safety in My Online Neighborhood

This lesson was originally created by Common Sense Education. [Learn more.](#)

The power of the internet allows students to experience and visit places they might not be able to see in person. But, just like traveling in the real world, it's important to be safe when traveling online. On this virtual field trip, kids can practice staying safe on online adventures.

Unplugged Activity

My Online Neighborhood

▼ Lesson 2: Learn to Drag and Drop

This skill-building lesson will give students an idea of what to expect when they head to the computer lab. It begins with a brief discussion introducing them to computer lab manners, then they will progress into using a computer to complete online puzzles.

▼ Lesson 4: Sequencing with Scrat

In this skill-building lesson, students will develop sequential algorithms to move a squirrel character from one side of a maze to the acorn at the other side. To do this they will stack code blocks together in a linear sequence.

▼ Lesson 9: Loops with Laurel

In this skill-building lesson, students continue learning the concept of loops. Here, students use loops to collect treasure in open cave spaces.

▼ Lesson 10: Ocean Scene with Loops

In this skill-building lesson, students learn to draw images by looping simple sequences of instructions. Here, loops are creating patterns. At the end of this lesson, students will create their own images.

▼ Lesson 11: The Big Event Jr.

In this context-setting lesson, the class will experience the concept of events through a game where they move or shout when you press buttons on a giant remote.

▼ Lesson 12: Mini-Project: On the Move with Play Lab

In this mini-project, students will use events in Play Lab and apply all of the coding skills they've learned to create an animated game. It's time to get creative and make a story in the Play Lab!

Project

Scratch, which is a free computer programming language available at <http://scratch.mit.edu>. With Scratch, people can create a wide variety of interactive media projects—animations, stories, games, and more – and share those projects with others in an online community.

COMPUTATIONAL CONCEPTS

CONCEPT	DESCRIPTION
sequence	Identifying a series of steps for a task
loops	Running the same sequence multiple times
parallelism	Making things happen at the same time
events	One thing causing another thing to happen
conditionals	Making decisions based on conditions
operators	Support for mathematical and logical expressions
data	storing, retrieving, and updating values
