

Guest Lecture on - Exploring Flow Charts using Raptor at BRR & GKR Chamber's Degree and PG College, Palakol on 13-12-2023

Mr. Naresh Bhimavarapu, Associate Professor Department of Computer Science at B V Raju College, delivered an insightful guest lecture on "Exploring Flow Charts using Raptor" at BRR & GKR Chamber's Degree and PG College, Palakol, on 13-12-2023. The lecture was tailored for I BSc students, aiming to introduce and delve into the practical aspects of algorithm design and visualization using flow charts with the Raptor programming environment.

He covered essential topics for I BSc students, including algorithm basics, characteristics, and the use of flow charts for problem-solving. He introduced Raptor, a user-friendly programming tool, explaining its role in translating algorithms into executable code. The practical session involved exploring the Raptor interface and creating example flow charts.

Students actively participated in the session, posing relevant questions and engaging in hands-on activities. The practical examples using Raptor enhanced their understanding of algorithmic concepts.

Mr. B Naresh's guest lecture successfully bridged theoretical knowledge with practical application, providing students with valuable insights into algorithm design and Raptor usage. The session contributed to a deeper understanding of these fundamental computer science concepts.
