# PPT PRESENTATION

## What is PPT Presentation

A presentation is a purposeful communication. In other words, it is the process of presenting a topic to an audience, with a specific purpose.

Presenting information clearly and effectively is a key skill in getting your message across. Today, presentation skills are required in almost every field, and most of us are required to give presentations on occasions.

## Benefits of PPT Presentation

### Develops Confidence in Students

Most PowerPoint projects involve presenting a topic in front of a group of people. This acts as a means to develop public speaking skills in a student. As we all know, speaking in front of a crowd requires great courage and a certain level of confidence. If you are not confident it will be very difficult to put forth your points and opinions.

When students give presentations, again and again, it increases their confidence level. It also helps them give their opinion among a group of people.

### Development of In-depth Knowledge

A student will absorb the information better than writing a note in the notebook if they get a topic as slides.

### Development of Job Skills in Students

To convey your ideas to the people nearby you via a PowerPoint is one of the most popular ways, very few of us realize it. The student should be habitual in giving a presentation from the beginning. Then the chances of making mistakes in a job are less.

As we all know, the knowledge of a topic is better absorbed via presentations. PowerPoint presentation in a positive way affects a student's personality's various aspects. It improves the student's knowledge as well. As stated earlier, it develops confidence and gets rid of stage fright. Besides that, presenting a topic improves the vocabulary and speaking skills of students.

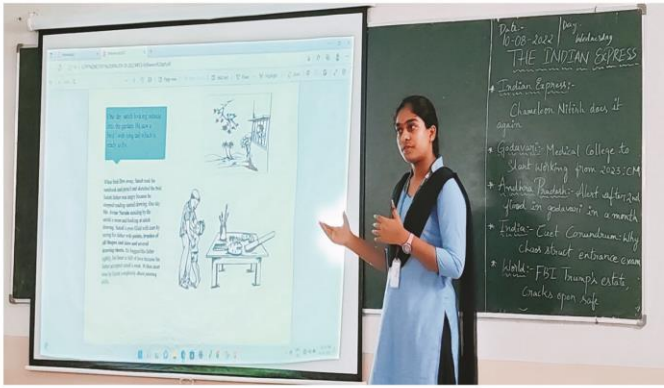

Students who are in the audience, their listening skills will increase. When the audience asks questions, it gives a chance for the presenters to answer further by expanding their knowledge as well.

## Report

For 1st year B.Sc and B.Com students, PPT presentation activity was held on 10 August and 11 August 2022 to develop predominantly their communication skills as well as to enhance confidence in presentation skills. 49 students participated in PPT competition.

# PPT PRESENTATION

PPT presentation has been held to English language learners. It has mainly been conducted to empower students' presentation skills before gathering.
