

DEPARTMENT OF ENGLISH

ROLE-PLAY

The English club's Role play activity, held on February 18, 2025, in the activity hall, was a thoughtfully designed initiative aimed at fostering language skills development among first-year degree students. The primary objective of this endeavor was to create an environment that encourages students to engage in conversations and speak confidently among themselves. To achieve this goal, the club conducted a multi-tiered selection process, where initial role play activities were held at the classroom level. This allowed students to showcase their language skills and creativity in a more intimate setting. The winners from each classroom then proceeded to participate in the final role play activity, which brought together the most talented and enthusiastic students from various classes. By providing a platform for students to express themselves and interact with their peers, the English club successfully created an engaging and supportive environment that promoted language skills development and boosted students' confidence in speaking. The activity not only helped students improve their communication skills but also allowed them to develop essential life skills, such as teamwork, problem-solving, and critical thinking, all while having fun and exploring their creativity.

Objectives

1. Role-playing helps the students to boost imagination and creativity.
2. Role-playing is essential in the life of children because it helps to develop empathy.
3. It is role-playing that helps the children to learn how to interact in various situations.
4. During role-playing activities, children hear many words. They develop language and communication skills.

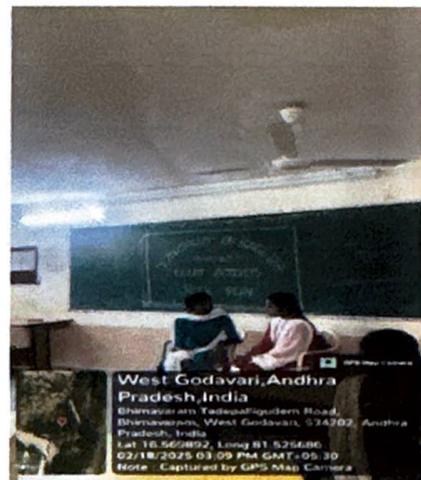

OUTCOMES :

The activity achieved its objectives, with students demonstrating:

1. Improved understanding of [topic/subject area] concepts.
2. Enhanced communication and teamwork skills.
3. Effective problem-solving and critical thinking.

CONCLUSION :

The roleplay activity was a success, providing first-year degree students with a valuable learning experience. It will be continued in future iterations, with potential modifications to further enhance student engagement and learning outcomes.
